## Education

Completed high school in three years allowing me to attend community college to explore areas of interest and enter Colorado University at Boulder as a sophomore. I am majoring in Technology, Arts, and Media with a planned graduation in May 2020.

## Research Labs

**THING Lab** (Transformative Human Interfaces for the Next Generation) worked on a VR 3D painting app using a motion capture system  
**IRON Lab** (Interactive Robotics and Novel Technologies) working on AR human-robot interaction projects, specifically with drones and firefighters

## About Me

I love to learn and I am passionate about combining technology and design. I really enjoy building/designing things through an artistic and creative point of view. In my free time I love coding in Unity, designing websites, and 3D modeling.

## Experience With

C#, Python, HTML/CSS/JS, Go, C, C++, Bash, Unity, Maya, Adobe Suite, Unreal Engine, VR/AR, Motion Capture, Microcontrollers, P2P Streaming (WebRTC), Shop Tools (3D Printing, Laser Cutting, etc.)

## Clubs

Virtual/Augmented Reality, vice president  
Computer Graphics/3D Modeling  
Hyperloop, software lead  
Cybersecurity  
Laser Smash Pancakes, co-president  
CU Titan Productions

## Courses of Interest

### Technology

Engineering Projects  
Meaning of Information Tech  
Advanced Post Production  
Data Structures (C++)  
Discrete Structures (Python)  
Object (Arduino)  
VR (Unity)

### Design

Game Design (Unity)  
UI/UX Design  
3D Modeling & Animation  
Digital Imaging (Photoshop)  
Sound Design  
Text (Illustrator)  
Form (Rhino)

### Sciences

Physics of Light & Color  
Color Management & Theory  
Psychology  
Neurohacking

## Sumer 2019

### Speech Graphics

Worked on the demo app as well as the Speech Graphics Network Platform. Worked with Unity, C#, C, Go, Obj-C, and WebRTC  
Scottish Tech Startup of the Year: <https://lnkd.in/drzNnt7>

## Previous Experience

### Sumer 2018

### Envestnet Yodlee:

Built a Python SDK and a demo web app using Django for the fintech API. Wrote and reforemed documentation/sample code. Worked with Python, Postman, and Django

### Sumer 2015

### Counselmore:

UI/UX designer for the main website. Worked with HTML, CSS, JS, and SAAS
